

Service • Education •  
Progress

The Office of the Superintendent of Public Instruction has established four goals for education reform. Through its innovative leadership development programs, Washington FBLA assists students and educators in meeting all four goals.

1. Read with comprehension, write with skill, and communicate effectively and responsibly in a variety of ways and settings.
2. Know and apply the core concepts and principles of mathematics; social, physical, and life sciences; civics and history; geography; arts; and health and fitness.
3. Think analytically, logically, and creatively, and to integrate experience and knowledge to form reasoned judgments and solve problems.
4. Understand the importance of work and how performance, effort, and decisions directly affect career and educational opportunities.
